

PRAMUDYA DUTA KUSUMA WARDANA SWAIZY

Livestock Supervisor | Feedlot Operations | Bachelor of Animal Science

Jakarta, Indonesia | +62 811-1202-401 | pramudyaduta9@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Bachelor of Animal Science from Brawijaya University with a GPA of 3.75 and more than two years of experience in feedlot operations, livestock supervision, cattle-health monitoring, feeding discipline, biosecurity, animal welfare, and field SOP implementation. Progressed from an approximately 1,500-head unit to an assignment with peak population exposure of approximately 6,000 head. Combines technical livestock knowledge, team coordination, and disciplined execution to support cattle readiness and operational stability.

CORE COMPETENCIES

Feedlot Operations | Livestock Supervision | Cattle Health Monitoring | Feeding and Feed Quality | Animal Welfare | Biosecurity | SOP Implementation | Team Coordination | Cattle Handling | Barn Sanitation | Operational Reporting | Microsoft Excel

PROFESSIONAL EXPERIENCE

Supervisor - Pasir Tengah Feedlot | PT Sumber Daya Multikarya

Jul 2024 - Present | Cianjur, West Java | Peak population exposure of approximately 6,000 head

Maintains unit stability through cattle monitoring, feeding routines, team coordination, welfare, biosecurity, area control, and consistent SOP execution.

- Oversees work priorities, area readiness, feed allocation, barn hygiene, and field-work discipline.
- Supports early identification of cattle-condition changes and operating constraints to accelerate follow-up.
- Aligns maintenance schedules, output targets, distribution readiness, and cross-functional requirements.
- Maintains accountability through structured handovers, escalation, and team communication.

Supervisor - Rangkasbitung Feedlot | PT Sumber Daya Multikarya

Nov 2023 - Jul 2024 | Rangkasbitung, Banten | Approximately 1,500-head unit

Supervised daily feedlot operations covering feed control, cattle-health monitoring, sanitation, handling, records, and compliance with animal-welfare standards.

- Conducted structured cattle-health monitoring and supported early identification of condition changes.
- Participated across the operating cycle, from feed preparation and care to relocation and shipment coordination.
- Supported stable and scalable work routines as a foundation for transition to a larger unit.

PROFESSIONAL EXPERIENCE

Operational Manager | PT Duta Raya Properindo

Mar 2021 - Sep 2023 | Bekasi Regency, West Java | Residential project operations

Managed project operations and ensured delivery against company targets, quality standards, timelines, and operating requirements.

- Led daily coordination, resource allocation, workflow supervision, and field problem solving.
- Collaborated with project development, marketing, and finance teams to support business objectives.

Student Intern - Beef Cattle Fattening | PT Sumber Daya Multikarya

Jun 2022 - Jul 2022 | Rangkasbitung, Banten

Built a practical foundation through feed distribution, health observation, barn sanitation, handling, and cattle relocation.

- Supported cattle-condition monitoring and corrective follow-up under field guidance.
- Complied with work-safety and animal-welfare procedures throughout handling activities.

EDUCATION

Brawijaya University | Malang, East Java

2019 - 2023 | Bachelor of Animal Science | GPA: 3.75

Foundation in Animal Science, livestock management, beef production, animal health, and animal welfare.

SMAI Al-Azhar Kelapa Gading | Jakarta

2016 - 2019 | Science Major

ACADEMIC PROJECT

Undergraduate Thesis Research | Brawijaya University

Nov 2022 - Dec 2022 | Carcass Production of Brahman Cross Steer and Heifer

Research across 210 Brahman Cross cattle (105 steers and 105 heifers), analyzing daily weight gain, slaughter weight, carcass weight, carcass percentage, and Income Over Feed Cost.
